## EDUCATION

---

**Ajay Kumar Garg Engineering College (AKGEC)**

Bachelor of Technology in Computer Science, 7.83 CGPA

Ghaziabad, Uttar Pradesh

2020 - 2024

## SKILLS

---

**Languages:**

C, C++, Python, JavaScript, TypeScript, HTML, CSS

**Frameworks/Libraries:**

ReactJS, Bootstrap, Tailwind CSS

**Developer Tools and Technologies:**

Git/GitHub, Figma, Netlify, VSCode

**Concepts:**

Data Structures and Algorithms, DBMS, OOPS, SDLC, Agile

## WORK EXPERIENCE

---

**Accenture**

Aug 2024 - Present

Associate Software Engineer

*Onsite*

- Gained hands-on experience in SAP ABAP development, including custom report creation, modularization techniques, and performance tuning, aligned with real-world business scenarios.
- Completed specialized training in AI/ML, focusing on core concepts such as machine learning algorithms, data analysis, and model building, with practical exposure to Python tools and real-world problem-solving.
- Tech used: SAP GUI, ABAP Workbench (SE80), Data Dictionary, ALV Reports, Python, Jupyter Notebook

**CodSoft Internship**

Aug 2023 - Sep 2023

Frontend Developer - Intern

*Remote*

- Collaborated with a dynamic team of web developers to gain hands-on experience and contribute to various projects aimed at enhancing web presence and user experience.
- Engineered dynamic contact forms using React and Bootstrap, integrating real-time validation and API connections, streamlining user interactions, and boosting feedback collection.

## PROJECTS

---

- **NyaySetu Assistant**
  - NyaySetu transforms legal access with a multilingual chatbot based on the GPT model and features such as legal citations, case-specific assistance, and text summarization. User feedback fuels continuous improvement and maintains a comprehensive FAQ section.
  - Tech Stack: Javascript, Reactjs, Nodejs, Prompt Engineering, Tailwind CSS, Firebase.
- **Sorting Visualizer**
  - Designed an application showcasing sorting algorithm operations through animation, allowing for adjustable element sizes and sorting speeds to optimize comprehension.
  - Demonstrated proficiency in creating a visually captivating and user-friendly interface, incorporating responsive design principles for a seamless experience across devices.
  - Tech Stack: Figma, HTML, CSS, JavaScript.

## ACHIEVEMENTS / EXTRACURRICULAR ACTIVITIES

---

- Smart India Hackathon 2023 (Software Edition) Finalist
- C++ and SQL training from Internshala ([Certificate](#))
- Solved 200+ DSA problems on LeetCode and GeeksForGeeks
- Organised HackFest: a 3-hour coding showcase fostering innovation and talent among college coders.
